ABOUT OUR JOURNAL

Wake Treasures is the journal of the ***Wake County Genealogical Society*** (***WCGS***) and is free to members. Semiannual issues are identified as Winter/Spring and Summer/Fall. Past issues of ***Wake Treasures*** are sold in volume sets. An order form is inserted at the center of the journal and is also available on our web site.

We endeavor to regularly publish primary source documents with historical or genealogical significance for Wake County, North Carolina. We will also publish primary source documents from related counties if there is no Genealogical or Historical Society serving that county. We welcome articles about methodology and research experience as well as articles portraying Wake County residents, places, and events of the past. We seek a balance of time periods and hope to address the needs of both new and experienced genealogists.

Proposals and submissions may be sent by email or postal mail. References used to compile an article must be included. Depending on the nature of a submission, minor editing may be applied, but no substantive changes will be made. Errors in original documents that are transcribed should not be corrected, but notations may be made if they are clearly indicated.

Neither ***WCGS*** nor the Journal Committee shall be held responsible for the accuracy of submitted articles. This is the sole responsibility of the contributor. Documented content corrections that are submitted to the Editor will appear in a later issue.

Permission to reproduce or quote from an article published in any issue of ***Wake Treasures*** must be obtained in writing from the author or authors. Write to the author in care of ***WCGS***.

ABOUT OUR SOCIETY

Wake County Genealogical Society, Inc. (***WCGS***) was organized in April 1982 to promote genealogical study and research, to serve as a medium of exchange of genealogical or historical information, to encourage the preservation of genealogical or historical records, to provide cultural, educational, and social opportunities involving genealogy. In 1983 WCGS was incorporated as a non-profit organization under the laws of the State of North Carolina.

Membership is open to anyone with an interest in the purposes of ***WCGS*** as stated above. The membership year is from January 1 through December 31. Annual dues are $20 for individuals and institutions and $25 for families (two people, related by blood or marriage, residing at the same address). A membership form is available on our web site.

Members receive the society journal, ***Wake Treasures***, in which they may place an unlimited number of free queries, and the quarterly newsletter, ***WCGS Updates***. Both of these publications are available on the WCGS web-site for download. Members receive access to all issues for the current year and to an archive of past issues.

WCGS meets on the fourth Tuesday of each month except June, July, August, and December. Meetings begin at 7 pm, and visitors are welcomed. See our web site for current meeting topics and location: (http://www.rootsweb.com/~ncwcgs/).

BONDS IN THE NORTH CAROLINA STATE ARCHIVES
PART FOUR: MISCELLANEOUS BONDS

DEBBI BLAKE
NORTH CAROLINA STATE ARCHIVES

There are several types of bonds that, while they are important to genealogy, may be useful to family historians only in fleshing out a picture of their ancestor. In other words they may not have the potential for great undiscovered family information but they can give the researcher useful information about the person taking out the bond.

These additional bonds are Tavern and Ordinary Bonds **and** Guardian and Administrators Bonds.

Tavern and Ordinary Bonds

Very early records indicate that persons running ordinaries or taverns were required to post a bond. Both taverns and ordinaries were important to early settlers in our state. During the colonial period, ordinaries were more often than not, lower class establishments than taverns. Such establishments were present until about the mid-19th century. The traveling conditions of early North Carolina made both ordinaries and taverns welcome respites for weary travelers.

Ordinaries and taverns had to be licensed and the keeper was required to take out a bond stipulating that he would follow the law. The bond allowed the owners to charge for victuals and lodging. Like other types of bonds, in addition to the ordinary keeper, a surety had to sign. The tavern or ordinary keeper was often a prominent man, but in many counties, bonds to keep ordinaries were given to women. Interestingly enough many ordinary keepers also ran ferries. A useful article, written by Dr. Alan Watson and entitled "Ordinaries in Colonial Eastern North Carolina," was published in the January 1968 issue of the North Carolina Historical Review.

Guardians and Administrators Bonds

The courts appointed guardians to look after the estates of minors or incompetents. Guardians had to post a bond before beginning their duties. Their jobs involved the management of the property of their wards. Researchers should not make the mistake of assuming relationships between the guardian and the ward. It is true that they may be related but they just as easily might not be. Neither can the researcher assume that the ward is an orphan in the modern interpretation of that word. A guardian could be appointed for a minor whose mother was alive and sometimes even when both parents were alive. The guardian's job was to manage the minor's property. One good thing about guardian bonds, and the reports made about the management thereof, is that sometimes, if applicable, they include a deceased person's name and the value of the property. If there are multiple minor children who receive portions of the estates, sometimes the entries are listed near each other.

Administrators' bonds were bonds taken out by someone administering a decedent's estate. The courts appointed someone to administer the estate of a person

who died without a will. Often the job would fall to the next of kin but if they chose not to do it then someone else served as administrator. The bond amount was usually two times the value of the estate being administered.

While all bonds are useful to researchers, some give more direct information about an ancestor than others. Marriage bonds, for example, do give direct information about a man's intention to marry a woman. That is valuable information, indeed. Other bonds, such as the ones covered here, as well as officials' bonds, give information that is useful because it adds biographical information about an ancestor. That, too, is valuable. While they remain an underused series of records, bonds can be quite important for researchers.

Do you have a stash of undated family letters with unreadable postmarks? Helpful websites, such as "The History of Postal Rates in the United States" by Andrew K. Dart at http://www.akdart.com/postrate.html may help you determine approximately when these letters were written. Some, but not all, of the increases are listed below.

July 1, 1885	2 cents	May 16, 1971	8 cents
November 3, 1917	3 cents	March 2, 1974	10 cents

Manuscripts Department at The Wilson Library

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL – MANUSCRIPTS DEPARTMENT

BY DIANE L. RICHARD

The more I visit UNC Chapel Hill's Wilson Library (Wilson Library), the more I learn about all that it contains. I have viewed from Civil War diaries to Civil Rights era photographs; late 18th century estate documents and early 19th century Wake County court documents; and I have listened to audio recordings of interviews. There are many hidden gems to be found either online or in person at Wilson Library.

I will now share some information about this rich collection. I will first talk about visiting Wilson Library and then collections with a Wake County connection and then other collections that might interest you.

Visiting the Manuscripts Department – Wilson Library

Since policies, procedures, and hours can change, always visit http://www.lib.unc.edu/mss/ before you plan a trip to Wilson Library. And, be sure that you are very familiar with the search room rules, http://www.lib.unc.edu/mss/pspol/researcher.html.

From my various trips out to use the collections there, here are a few notes:

1. The main manuscripts collection is on the 4th floor of the library (physically located just across the street from the Bell tower). Park in the Rams Head Deck located off of Ridge Road – this is a 10 minute walk from the library. Parking currently costs $1.25 per hour or part thereof.
2. The library is located near the Student Union, and there are nearby places to purchase beverages and food.
3. You may NOT bring any writing implements into the search room except pencils.
4. You may NOT bring numerous research documents/papers in with you. You are basically discouraged from bringing any paper in. Though, if you need to bring in a copy of a finding aid, they will stamp each page of that before you are permitted to take it in.
5. Lockers are provided free of charge for you to store backpacks, bags, pocket books, etc.

6. You may bring in a laptop computer, digital camera (no flash use permitted), and a small table-top tripod.

7. You will use call slips to request collections – one call slip per collection or call number. They will only accept one call slip at a time. If you will need multiple collections pulled, I suggest that you write these all up in the beginning. and then as you return one collection, you can hand them the call slip for the next needed item.

8. In advance of your trip, if possible, identify the appropriate collection and print the finding aid. Sometimes the finding aids online are detailed, and sometimes they are just summary ones. If you determine that the collection is large and/or varied and that the finding aid seems to lack in detail, contact the Manuscripts Department at mss@email.unc.edu or Manuscripts Department, 4th Floor, Wilson Library CB# 3926, University of North Carolina at Chapel Hill, Chapel Hill, NC 27514-8890, Telephone: 919-962-1345, FAX: 919-962-3594, and request the "detailed" finding aid. Depending on size, this will be sent to you as a .pdf file or mailed.

9. Make sure that the collection of interest does NOT have restrictions on it – either to access or to reproduce or photograph. Or, if it has restrictions, that you have obtained the permission of the donor (who may or may not be the copyright holder) in advance of your visit!

10. There is NO real-time copying. If you need documents reproduced, you will complete and sign a "Duplication Agreement" for each collection containing materials that are to be reproduced. Also be aware that:

    - The Department will not duplicate entire collections or material that is on microfilm.
    - Your entire duplication request may not exceed 200 exposures.
    - You are responsible for tracking your exposure count for the entire copy request. If your request exceeds 200 exposures, they will only make the first 200.
    - Your duplication request will be reviewed and assigned a cost quotation. It can take up to 2 weeks to receive this quotation. Once your payment is received, the copies or digital reproductions will be mailed to you or wherever you designate.
    - If the documents you are looking at have been microfilmed, you may find that the copies will be made from the microfilm and not from the originals (that is a right that is reserved by the library) – if this distinction is important to you, research before hand (typically, the finding aid will indicate if a collection is available on microfilm) and plan accordingly (e.g., bring your camera with you if you really want a copy of the original!).

11. If you plan to take digital images, you will be required to sign a Photo Release form.

12. If you are not able to visit in person, they will sometimes handle small requests (e.g., I requested and received a copy of a slave narrative); and if your needs are beyond what the staff can handle, they maintain a list of researchers for hire.

I have always found the Manuscripts Department staff to be very helpful. Do ask them your questions. Do prepare for your visit or query. Do take advantage of all the material available online or that can be requested from the staff. The better prepared you are, the less frustrating and more productive your visit or experience will be!

To show you some of what can be found at Wilson Library, I did some research into collections with Wake County connections and then mention some other collections that may also interest you.

Collections with Connections to Wake County…

I focused on "older" (pre-20th century though some collections extend into the 20th century) collections and those who had a primary component that focused on one or more Wake County families … this list is not comprehensive in that collections that only appear to contain a fleeting mention of Wake County are not included. And, there are a few entries relevant to pre-1777 Johnston County, one of the parent counties of Wake County! Similarly for Wake County families, it is also relevant to look into the earlier records of Orange and Granville Counties.

A HEALTHY PLACE IS APEX

Highest Point on the Raleigh and Augusta Division of
THE SEABOARD AIR LINE
A Place With a Future of Great Prominence in the
Industrial World of North Carolina.

A TOBACCO WARE HOUSE
Soon to be Erected Where Some of the Finest of the Golden Leaf
Will Be Placed on Sale.
Her Excellent Citizenship Unsurpassed in Health.

It was the first of June and the first days of summer were upon us and having tired of the hot sultry office I sauntered down to the Union depot in Raleigh and boarded the south bound mail train of the Seaboard Air Line system. The cars as usual were crowded and as we went flitting along with the fields of green on either side and everywhere the signs of prosperity the change of scene was indeed delightful, but presently the conductor shouted "Apex," and having heard so much of this place I decided to stop and spend the night and return to Raleigh the next morning.

My visit was a pleasant one and I have written the following lines relative to that prosperous little place, in order that some one of the many who are seeking new fields where they will not have to trod the frozen grounds of the far north west for six months out of the year may read of its opportunities many of which the lack of space will preclude mentioning.

EARLY SETTLEMENT.

The early settlement of Apex does not date back for many years and its streets are not marked, with colonial buildings, etc. But it is rather of recent date, having been settled shortly after the civil war upon the completion of the Raleigh and Augusta division of what is now the Seaboard Air Line and which road was graded during the war and after the close of hostilities the road was completed and the name "Apex" was given to the highest point on the division, then but a mere station, but what is now the hustling Apex. A charter was granted by the legislation in 1873 and the late Hon. H. O. Olive was the first mayor. But the last legislature

that of 1899 passed an act granting an amended charter with full privileges of taxation, etc.

LOCATION.

Apex with a population of 500 is located in Wake county on the Seaboard Air Line railroad just fifteen miles from Raleigh, the capital of the State. It is ten hours ride from Wilmington and eleven hours from Atlanta, with two mail trains each way every twenty four hours. It forms the back bone so to speak of the lands laying between the Cape Fear and the Neuse rivers and water falling on Salem street which is the main thoroughfare of the town will divide and all that falls on the west side go to the Cape Fear while that of the East will wind its way to the "Neuse."

HEALTH.

Owing to the high elevation of Apex and the surrounding health giving atmospheric conditions it may be truly said that the place is unexcelled in health and that a case of typhoid fever has never been known to originate in this place.

CHURCHES.

The people of Apex seem to be a God fearing people and who attend their churches of what ever denomination with a regularity that bespeaks well for them. It may be here mentioned that during the first years of Apex that numerous bar rooms were there, but ten or twelve years ago a vote was taken and since that time this beautiful little place has been dry as far as liquor is concerned. The churches of Apex are two Baptist and one Methodist besides the colored churches. These churches are the First Baptist, which was organized about 24 years ago, with Rev. Skimson Ivey as the pastor at that time, the present pastor being Rev. A. D. Hunter who resides at Cary. The Central Baptist was organized about 15 years ago with its present pastor, Rev. J. M. Holleman who has since been its able and efficient pastor.

The Methodist church was the first one of the place, but the building was burned and only about ten years ago they got a new building, erected and are now in a prosperous condition with Rev. A. L. Ormond as pastor.

Each of these churches are well attended and are presided over by able divines.

TOBACCO WAREHOUSE.

One noticeable feature in regard to the products of the fertile lands which surround Apex is that while the crops are well diversified that the land lying to the east sand south is devoted mainly to cotton, while on the north and west some of the finest of the yellow leaf tobacco produced in the State is raised.

And upon thorough investigation it has been found that more tobacco is raised within twenty miles of Apex than is within the same number around Durham. This being the facts that merchants and farmers in the vicinity of Apex have decided to erect a warehouse at that place which will be completed, no doubt, in time for the coming crop, and it will not only be a benefit to Apex, but an enormous help to the farmers who previous to this have been compelled to haul their tobacco to Durham or Raleigh. Now this long haul will be saved.

RAILROADS.

The facilities afforded for passenger and freight traffic are excellent, and are furnished by the Seaboard Air Line, Apex being on the main line of the system with two day passenger trains going each way daily. Apex is also the northern terminal of the Cape Fear and Northern Railroad, which is expected to be extended on to Durham, and there connect with the Southern. At the present time it only extends from Apex, the northern terminal, to "Angier," a distance of twenty miles.

JOHN C. BURNS, *Mayor*.

This gentleman, who for the past ten years has served the town in some one or another of official capacity, is a North Carolinian by birth, and first saw the light of day in Chatham county, on April 28th, 1851, and at an early age in life he removed with his parents to Wake county, and settled in the eastern part, it being in Swift Creek township, where he attended the schools of that section. In December, 1874, he removed to Apex, where he has since continued to live. He was a justice of the peace for twelve years, and is at present mayor of the town, having been elected in May of the present year. He has served the town as mayor for several terms before, but had in 1897 resigned.

Mr. Burins has been engaged in farming the greater part of his life, which vocation he still follows, his place being located in the edge of the town. He is a member of the First Baptist church of Apex, a great worker and an ardent Democrat. Mr. Burns has been married for twenty-five years, and enjoys all the comforts of a happy home, and may he continue in health, prosperity and happiness is the wish of the writer.

EUGENE B. STURGEON, *Ex-Mayor*.

Among those of the citizens of Apex who have long since passed the maturity of life, but who are still in active service for the progress and advancement of that section, we find the above-named gentleman as zealous a worker as is generally found among those of a much younger age. He is a native of Washington, D. C., by birth, having been born there on November 5th, 1841. His education was received at Alexandria and Annapolis, where he was prepared for the navy, which he entered in 1857 as an acting midshipman, and served until 1859, when he resigned and went to California, where he remained until the outbreak of the war when he rejoined the navy as a lieutenant, serving through the entire war, and at the end of which he resigned. In 1889 he made his advent into North Carolina and settled at Apex, where he has since continued to live, being engaged in agricultural pursuits, his place being located in the edge of the town, where he lives and enjoys all the comforts of a happy and contented home. He is numbered among the most enterprising citizens of the town, and during the last term was at the head of the city government of Apex, now being its ex-mayor.

H. C. OLIVE Co., General Merchandise.

The above named concern is looked upon as one of the principal factors which have helped to advance the material welfare, and one of the main props to the present solidity and importance of the town. The house is one of the pioneer mercantile establishments of the place, and during its life it has steadily increased the reputation of its goods and extended its trade throughout the whole surrounding country. The business was started by the late Hon. H. C. Olive, who continued at its head until his decease in 1898, the business a short time previous having been incorporated under the name of the "H. C. Olive Co." by the Legislature, with H. C. Olive as secretary and treasurer and general manager. Upon the death of the Hon. H. C. Olive, his son, L. S. Olive, was appointed as secretary and treasurer and general manager of the H. C. Olive Company.

The business from the start has been very successful, and just recently a branch store was opened at Mineral Springs, a distance of twelve miles from Apex.

The trade enjoyed at both places is very extensive, and is drawn from miles around.

The building at Apex, which is amply commodious, is replete with a choice line of general merchandise, and a specialty of fancy groceries.

The business is in a prosperous condition, under able and efficient management, and its future is indeed a bright one.

DR. J. L. MOORE, Physician.

Is a native North Carolinian and was born in Northampton county October 21, 1863. He received his elementary education by attendance at Yadkin College of Davidson county. He began the study of medicine under Dr. I. E. Green, of Weldon, in 1882, and subsequently graduated from the College of Physicians and Surgeons of Baltimore with the class of 1886. He began the practice of his chosen profession in Bertie county, where he continued for a period of six years, and at that time he removed to Apex, where he has since continued to reside, and has an augmenting practice which extends throughout the entire section.

Dr. Moore has twice been married. The first time to Miss Lillie M. Mallory of Virginia, and the second time to Miss Annie E. Dunn, of Neuse, Wake county. He has one child, a beautiful daughter, now at the age of ten.

APEX CANNING COMPANY, Incorporated.

Apex has during the past few years manifested more spirit of progress and enterprise than at any other period of her history. Evidences of this substantial prosperity are becoming abundant by the progress of her manufacturing enterprises, and one of the most prominent of those may be stated as the Apex Canning Factory, which was incurporated under the laws of North Carolina on April 16, 1898, with a capital stock of $10,000.

The first year of the business was very successful, as will be shown by the following lines which were taken from the report of the secretary and

manager, Mr. J. J. Rogers, in his report to the board of directors:

"I beg to make this my first annual report as secretary and manager of your company. A year ago we issued and sold for cash at par 260 shares of stock at $10 each, receiving $2,660. Five hundred and eighty-six dollars and fifty-eight cents was expended for charter, seal, lot, house and fixtures.

"I have contracted for more than five times the acreage of last year, and with a fair crop we will be compelled to enlarge our capacity, which we can easily do. We realized the first year between 12 and 13 per cent. I recommend that we pay to stock holders at 10 per cent dividend. This will give the new stock some advantage, and should render it very desirable. Everything is in good shape, taxes, insurance, etc., all paid."

The $1,000 of stock was at once taken and the plant has been enlarged and all late and improved machinery have been added, so that now they have a capacity of from twenty to thirty thousand cans per day.

In conclusion we might say that if Apex had a few more enterprises of different character, and under management equal to the above that their prosperity would be assured.

The officers of the Apex Canning Company are as follows:

W. E. Neal, president.
T. J. D. Pate, vice-president.
L. S. Olive, treasurer.
J. J. Rogers, secretary and manager.

The board of directors are:

N. E. Neal J. B. Parks
L. O. Olive J. J. Rogers
T. J. D. Pate

APEX NEWS, Arch. J. Wood, Editor.

Only a few years back the thoughts of a newspaper at Apex would have been ridiculed, but now they have a weekly paper there that gives the local news of the surrounding section and also the general news of the country. It is ably edited by Arch. J. Wood, a young man who is using the influence of his paper for all it is worth for the upbuilding of Apex. As an advertising medium it deserves the support of every man who has anything to sell or wants to buy anything. The circulation extends over the entire section, and although started in March of 1898 the Apex News has made many warm friends in the section, who give it their hearty support. May its future be even brighter than the past is the wish of the writer.

W. F. UTLEY, Merchant.

Among the oldest and most reliable citizens and business men of Apex is the gentleman whose name captions this article, and who is a native of Wake county. He is one of the pioneer merchants of the town, having established his business in a very small way in 1873 at Apex, but by his untiring energy and business acumen he has established a fine business, and is today one of the leading business men of Apex, as a general merchant and farmer, dealing in real estate and other securities. All of this he has accomplished by not being discouraged on account of the loss of one leg in the cause of the Confederacy, and by forging upward toward the crowning point of success in his chosen vocation.

He is married and a member of the Baptist church, and with his good wife and family of four children at their pleasant home dispense a most delightful hospitality.

A. J. WOOD, Furniture.

This gentleman, who needs no introduction to the people of the section, has been a member of the business element of Apex for the past eight years, but only established his present business, that of dealing in furniture, three years ago. He handles a choice and select line of furniture, and is prepared to furnish his long list of customers with anything in the furniture line, and of the very latest and most artistic design.

PATE AND SON, Merchants.

Established this business three years ago, and in 1898 become known under the present name. They enjoy a good trade, and enjoy the respect and confidence of the people. They deal in dry goods, notions, fancy groceries and general merchandise.

W. E. CLARK, Butcher and Merchant.

This is the only place in Apex to obtain fresh meat, but no better place could be desired, as he keeps

everything fresh and of the very best. He also keeps a nice line of fancy and staple groceries.

A. T. MANN,
Blacksmith and Wagon Works.

This gentleman conducts an establishment from which is turned out work that is first-class in every respect, he having had a life time experience at the business. He is prepared to do work of any kind pertaining to the manufacturing or repairing of wagons, buggies, gun repairing and horse shoeing. Give him a call when in need of anything along that line.

HOTEL HOLLEMAN,
Mrs. J. M. Holleman, Proprietor.

In the usual rounds of the weary traveler it is not often he finds a place to stop where the hotel is conducted in such a manner as to remind one of home, and when he does chance to such good fortune he thinks that if all hotels were made as comfortable and inviting as our homes that the average life of the "knights of the grip" would be extended many years. These words being the truth it might be well to mention a place in North Carolina where the hotel is conducted on the principal of home; and that place is the Hotel Holleman at Apex, with Mrs. J. M. Holleman, who has been for the past twenty years proprietress.

As a place to stop it cannot be surpassed, and where a pleasant room and comfortable beds awaits the weary one who makes a visit to Apex.

HARWARD AND HUNTER.

The business of which we speak was first established in 1872 under the firm name of Harward & Utley, which continued four years, when it became W. H. Harward, and in 1880 it became known under its present name, that of Harward & Hunter.

The place occupied for the conduct of the immense business transacted is 26×90 feet in dimensions, and two stories in heighth. Here will be fonud a complete line of general merchandise, which embraces a select stock of dry goods, notinos, millinery goods, hats, caps, boots and shoes, hardware, groceries, and a complete drug department, which is in charge of a thorough and competent pharmacist, both Mr. Hunter and Mr. Harward being registered pharmacists, and since 1885 members of the Board of Pharmacy.

They do a very large business, both in the mercantile and drug line, and also in the buying of cotton, they being considered the largest buyers at Apex.

They also do a large real estate, loan and security business, each of which are very extensive.

Their farming interest is not a very small item either, as they have over a thousand acres, fifty of which is in tobacco, and some of the finest tobacco that goes to the Durham market was produced on their land.

In the mercantile business they enjoy a very extensive trade, which extends for a radius of twenty miles surrounding Apex, and for seven years they conducted a branch house at Chalk Level, near the Cape Fear river. This house was under the supervision of the junior member of the firm, Mr. A. B. Hunter, but it had to be discontinued owing to the growth of the business at Apex.

In addition to the above interests they have a saw and plaining mill, where all kinds of dressed lumber, mouldings, etc., can be had, and in connection with this a grist mill and cotton gin is also operated.

The personnel of the firm consists of W. H. Harward and A. B. Hunter, both North Carolinians, and who are among the most prominent citiens of Apex. They are married, and members of the Baptist church, and two gentlemen with whom it is a pleasure to meet.

WATER.

The water of Apex is excellent and an abundant supply can be obtained from wells at a depth of fifteen feet and it is a hard matter to find a well 20 feet deep. Owing to the immense flow of pure water-that is cold and very healthy.

North Carolina Death Certificates 1906-1919

[Introduction written by Karen-Marie Allen, Head Librarian, Olivia Raney Library]

On 10 March 1913, the North Carolina General Assembly ratified an act requiring the registration of births and deaths in the state; virtually full compliance was achieved by 1920, with some delayed birth records for earlier dates eventually added.

The first microfilm in the North Carolina Death Index records deaths filed in the early years of collection. The county of death was recorded as a numeric code. Wake County is number 92 and when you view the image; you will see the county written in that way.

Records on this early index were organized by county and date of death. Here is an abstract of those records for Wake County from this first film. They have been arranged in alphabetical order. Please note that the names have not been included in the general index to this journal but it is quite easy to scan the pages for your family member.

Death certificates contain two types of information: information about the person and information about the death.

Information about the person may include: first name, last name, middle name, age, sex, race, date of birth, place of birth (state or country), marital status (including number of children), spouse's name, occupation, father's name and birth place, mother's name and birth place, and signature and address of person providing information about the deceased.

Information about the death may include: date of death, primary cause of death, contributing cause of death, duration of the primary and contributing causes of death, signature and address of the physician, former residence if death occurred away from home, place of death, place of burial, date of burial, signature and address of undertaker, date when the certificate was filed, and signature of the local registrar.

Not all of this information will be on every death certificate and forms were not always complete but these documents still provide a wealth of information to guide genealogists in the search for that elusive ancestor.
