Wake County Genealogical Society, Inc. (***WCGS***) was organized in April 1982 to promote genealogical study and research, to serve as a medium of exchange of genealogical or historical information, to encourage the preservation of genealogical or

historical records, to provide cultural, educational, and social opportunities involving genealogy. In 1983 ***WCGS*** was incorporated as a non-profit organization under the laws of the State of North Carolina.

Wake Treasures is the journal of the ***WCGS*** and is free to members. Semiannual issues are identified as Winter/Spring and Summer/Fall. Past issues of ***Wake Treasures*** are sold in volume sets. An order form is available on our website or can be requested via postal mail.

We endeavor to regularly publish primary source documents with historical or genealogical significance for Wake County, North Carolina. We will also publish primary source documents from related counties if there is no genealogical or historical society serving that county. We welcome articles about methodology and research experience as well as articles portraying Wake County residents, places, and events of the past. We seek a balance of time periods and hope to address the needs of both new and experienced genealogists.

Proposals and submissions may be sent by email or postal mail. References used to compile an article must be included. Depending on the nature of a submission, minor editing may be applied, but no substantive changes will be made. Errors in original documents that are transcribed should not be corrected, but notations may be made if they are clearly indicated.

Neither ***WCGS*** nor the Journal Committee shall be held responsible for the accuracy of submitted articles. This is the sole responsibility of the contributor. Documented content corrections that are submitted to the Editor will appear in a later issue.

Permission to reproduce or quote from an article published in any issue of ***Wake Treasures*** must be obtained in writing from the author or authors. Write to the author in care of ***WCGS***.

EFFECTIVE USE OF THE NORTH CAROLINA STATE ARCHIVES FOR GENEALOGICAL RESEARCH

By Debra A. Blake

The types of records kept in the North Carolina State Archives are some of the best available for genealogists. Centrally located at the Archives are the pre-1900 records for all one hundred counties in the state. In this treasure trove of old records, it is easy for the genealogical researcher to become overwhelmed and make far less effective use of the materials than they might. For the genealogist to make the best use of the wealth of materials, the researcher should do his/her homework before arrival. One should compile as much information as possible about an ancestor. If possible, census work should be done so that a county of residence and the outline of the ancestor's life are known. With such knowledge, the researcher should have great success with the materials at the Archives. The government agencies likeliest to maintain pertinent information about ancestors were those agencies closest to them. These were such agencies as the county register of deeds and clerks of the various courts. Less helpful, but still useful, are state agencies such as courts, auditors, and/or treasurers. To find the records of state or county agencies, the North Carolina researcher has only to visit the North Carolina State Archives.

The most useful of all record groups is that of county records which fall into nine series.

1. **Bonds** – Bastardy, administers', officials' and other types of bonds are generally arranged by date.

2. **Census** – Few county copies of federal census records survive, but there are some lists that perform much the same function as the federal census for periods prior to 1790 when the first federal census was taken. The so-called "corn lists" of the period 1714-1716 list colonists who were taxed for provisions during the Tuscarora War. These lists are in the tax lists of the Colonial Court Records (CCR 190) and are primarily for the northeastern coastal counties, which were the settled part of NC at that time. Additionally, a census of sorts was taken in the colony during the years 1741-1752. It has been printed in the Winter 1966 volume of the *Journal of North Carolina Genealogy* on pages 1759-1769. The list is actually one of headrights and indicates the number of white persons in a household (with the exception of part of 1741 when whites and blacks in one household were added together) but serves much the same purpose as a census.

3. **Court Records** – County Court of Pleas and Quarter sessions and Superior Court records are usually arranged chronologically. Though unindexed and somewhat tedious to read, they are one of the best sources of information. They contain a wealth of information. One should never isolate one's ancestors from the time period in which he lived. There is no better way to get a feel for that period than to read the court minutes. They contain extraordinary details about the community. The occurrence of the county court was one of great interest it most everyone in the county. Court days frequently brought people to town who did not often get to town. Almost all white males and many other people appear in the court minutes at one time or another.

   With regard to court cases, which are often very detailed in information about individuals, several things should be realized. The actual transcriptions are almost never saved. Only occasionally does a case include such valuable documents, and this is more likely to have happened if the case was appealed to a higher court. In addition to the court dockets and minutes, loose civil or criminal action papers should be checked for accompanying documents. Careful attention should be paid to any actions of the court in a particular case. A change of venue indicates that the researcher must begin looking in another county for information. An appeal means the research must look in the records of a higher court, perhaps even the North Carolina Supreme Court.

4. **Land Records** – Although the deed books themselves remain in the county, the Archives has microfilm copies of them, as well as the indices. They are arranged chronologically. The North Carolina researcher will find these records to be some of the most valuable records available when the inevitable time comes that one must use land records to prove paternity.

5. **Estate Records** – There are different types of estate records, some arranged alphabetically, but most are arranged chronologically.

6. **Marriage Records and Vital Statistics** – From 1741 to 1868, these would be in the form of bonds. One thing to keep in mind about bonds was that a couple was not required to take out a bond, and most did not. The alternative was to get married in church after the banns had been called three successive weeks. A Bible record, newspaper account, church record, or privately held certificate is often all the only proof one can find. After 1868, North Carolina began requiring certification of marriages at the county level, and for the most part, the Archives has these on microfilm.

   Vital records include birth and death records and NC did not keep them before 1913.

   The Archives has microfilm copies of most all indices to vital records. These indices give the book and page number so that one can request the document from the county register of deeds. Exceptions are those counties which have health departments. Wake County is one example. One must deal with the health department itself or the Vital Records Section in Raleigh.

   The Archives has state copies of death certificates for October 1913-1945. They have been microfilmed and are available in the microfilm room of the search room. The indices are searched using the Soundex code and are available on film. For death certificates after 1945 and **all** birth certificates, check with the Vital Records Section or the county in which the event took place. A copy of each certificate was filed with the county and the state so it is important if a certificate does not appear in one place that you check the other. Mistakes often happen, and one or the other (or both) might not have been filed.

7. **Tax Records** – There is a wide variety of tax records available for most counties. Tax laws were quite complex and should be studied for a thorough understanding of them. For the researcher's benefit, all tax records have been listed on cards in the card catalog in the search room; therefore, one will find Treasurer's and Comptroller's, Governor's Office, Secretary of State, and General Assembly (formerly called Legislative Papers) tax lists, as well as those of the county, in the county records section of the card catalog.

8. **Wills** – The Archives has loose, original wills, although clerks were supposed to copy each will into a will book as well. The will books, generally, remain in the county, and the Archives has microfilm copies. All of the pre-1900 wills in the Archives are indexed in a volume by Dr. Thornton Mitchell called *North Carolina Wills: A Testator Index – 1663-1900*.

9. **Miscellaneous Records** – As the name suggests, these records contain much that does not fit into another record category. Some of the most useful and fascinating records in the Archives are a part of this group.

The staff in the search room can more successfully help the researcher who has done his/her homework before arriving at the search room. At the very least, one must have clear ideas about what questions one wants to answer about specific ancestors. The researcher must decide what he/she needs to know about an ancestors and where the information is likely to be found. Did he leave a will? Who were his children? When was he born? Who did he marry? Did he own any property? Who was his father? The staff can guide a researcher to the sources that can potentially answer such specific questions. They cannot guide a researcher to the vague "anything you have on my ancestors."

In addition to doing homework on the ancestors, the careful researcher also needs to know as much as possible about the area in which one's ancestors lived. At the very least, one should know what the parent counties and the offspring counties are for the county in which the ancestor lived. There are many books available to help researchers understand the history of an area as well as how to more effectively do genealogical research. A researcher's success will relate directly to how much work that researcher has done to prepare for the archives visit.

Genealogy cannot be rushed. It takes a great deal of time and effort and many trips to the Archives to utilize all of the available records. A knowledge of what those records are is very important. The prepared researcher will also find more than the unprepared. The abundance of records at the North Carolina State Archives is a true treasure trove for the genealogist who takes the time to prepare for the visit and has a plan for using the records housed therein.

TOOLS YOUR ANCESTORS MIGHT HAVE USED*

By Rob Elias
Durham, North Carolina

Few things are more fascinating and fun to handle than old tools. They tell us a lot about how our ancestors lived. Our interest in the historical use of tools, and our continued efforts to improve these tools, provide a clear indicator of how easy life has become over the past three hundred years. Just as we like to document human history and the progress of human enterprise, we also like to preserve the tools that made this progress possible. From the dawn of civilization, three conditions dictated the circumstances whereby man, above all other creatures, could make and use tools:

- The vision of how to make a hard task easier;
- The availability of raw materials (wood, iron, steel);
- Knowledge of how to form useful tools from these raw materials (cutting, burning).

In this article, we show how man began making and using hand tools in the Stone Age, how he modified these tools for specific uses over the centuries, and how he used materials such as wood, iron and steel to develop better tools. Along the way, he learned to convert powdered iron oxide to hard iron and eventually to malleable steel, and to do this in amounts that produced not only new tools but also new building materials, including glass, plastics, and exotic metals.

Many of the tools we purchase at a hardware store today were available, in a much simpler form, to our primitive ancestors. What is now made of steel might have been made of wood ten thousand years ago, and iron a thousand years ago. The ability to use fire was always a factor in developing metal tools. First there were open fires, then closed, hotter fires enhanced with primitive bellows. Before the Industrial Revolution, the colonial settler made his own tools or relied on the local blacksmith. The prototype of the high temperature ovens and heavy stamping machines that exist today evolved from the late 1830s, when the Industrial Revolution emerged throughout the Northeast, fueled by readily available coal. Complicating this process, these settlers were forbidden by British law, until 1776, to make tools on a commercial basis, less they compete with the “skilled craftsmen” in England.

The most primitive tool in the Stone Age was probably the rock, about the size of your fist. Besides a weapon of war, this rock could be used as a hammer to break open a shellfish, or to break other rocks to make sharp stones for arrows. Another tool would have been the wooden club, made from a well shaped tree limb. Put these two together and you have a primitive axe, of sorts. For thousands of years, these stones and clubs were the only tools available to prehistoric man.

Early in the settling of America, the need for finished wood complemented the need to clear fields for planting crops. And because crops were often rotated, this process of clearing more wooded areas could repeat itself three or four times before the farm would be fully settled and established.

THE AXE

The first task for the development of a new homestead began with the felling of trees. These trees would have been selected for a specific purpose: a new log cabin, a bridge, or perhaps a wagon. The felling of the tree required an open space into which the tree would (hopefully) fall. The diameter of the tree decreases with height, so it may be possible to use only a portion of the trunk for the desired purpose, but the skilled woodsman also had in mind a use for the rest of the tree.

Probably the closest relative to the wooden club would be the felling axe, of which we have two types: the European Felling Axe and the American Felling Axe. They differ only in the slope of the axe head (the American axe head being sturdier and better balanced), and the curvature of the handle (the curved American handle giving more leverage). The American head could have a single or double bit. These

shapes evolved through experience at using the tools for similar purposes but under different circumstances, such as clearing dense forests.

Using a felling axe, trees could be felled by making cuts as shown in the diagram to the right. These were cut by a woodcutter experienced at felling the tree in a specific direction. The first kerf would be above the root zone and on the side in the direction the tree was intended to fall. The cut would be slightly more than halfway through the trunk. The second, or felling kerf would be cut exactly opposite the first kerf and slightly above it. The strength of the trunk would begin to weaken with the first blow of the felling kerf, and the trunk would fall as the cut passed the center line. Properly done, the tree would be felled by one person on a line in the direction the tree was to be towed for finishing. If the land were being cleared for crops, the stump would be pulled up by a team of oxen.

The trunk was dragged to a location where the finishing could be done. Using the foot adz, the trunk would be scored and hewed on all four sides, leaving a square beam the maximum size for the trunk.

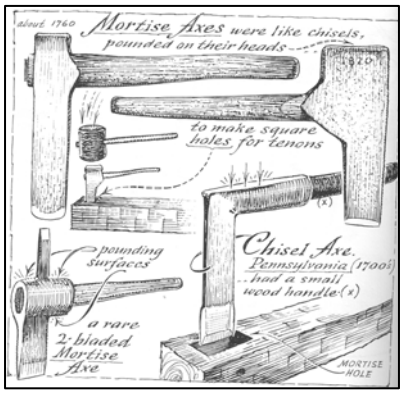
Smelting the metal for an axe head required hot temperatures and metal hammers to produce a folded piece of iron roughly the shape of the axe head. This was wrapped around a metal handle and beaten until fully formed, then the blade was sharpened. If available, a steel wedge was sharpened and inserted into the gap between the iron jaws to add strength to the cutting edge. When cooled down, the metal handle was replaced with a wooden handle, and an iron wedge forced into the neck of the handle to tighten the bond between the wooden handle and the blade.

The handle of the axe was originally straight. In later years the shape of the handle was modified for the intended purpose of the axe. A double bit axe handle was always straight. A single bit handle could be straight, or possibly curved for leverage. The length of the handle depended on the user, being the distance from the clasped hands to the ground. Thus each person had a custom built axe with maximum leverage according to his height. The length of the handle must also be compatible with the weight of the axe head. The handle was shimmed into the axe head with a hardwood wedge. If the handle broke during use, the axe head would have been removed by heating without softening the temper of the head.

Before long, many variations on the felling axe were created by skilled craftsmen. Most of these new tools were used for shaping blocks of wood needed to construct log cabins and, later, build houses.



The mortise axe is a special tool used for making square holes or slots at the end of the beam. This formed a joint at a right angle to another beam. The blade of the mortise axe is tapped into the wood then pounded to cut the wood squarely, gouging out small slivers of wood at a time until the square hole is cut through the beam. A second beam is cut using the same tools, but this time the outside is removed, leaving a square peg. The hole is called the mortise, the peg is called the tenon. Sometimes these were locked in place with a round dowel called a treenail. This would be done by drilling a hole through the joint with both pieces in place and pounding the dowel into place.

SAWS

The crosscut saw reduced the amount of work that had to be done with the axe. The ends of the logs could be cut smooth and trimmed, and if needed, shaped with a dovetail. For a log cabin, the logs were notched with a slot and wedge pattern. Sometimes a piece of wood needed to be cut by shaving along the grain, as for a shingle. This would be flat on one side and tapered on the other. The tool was called a drawknife, and had two handles and a blade. The process required a shingle "horse." The craftsman held the block of wood in place with a foot operated clamp that left his hands free to pull the drawknife toward him.

The frame saw, or turning saw, was used for cross-cutting, and required a blade smaller than a rip saw. The blade was kept taut by twisting the rope at the top of the handles. Depending on the length, one or two people could use the frame saw. The panel saw could also be used for ripping, especially if the board was short.

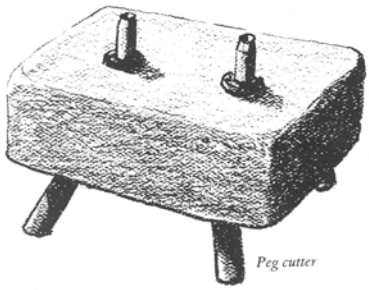
OTHER TOOLS

A simple device to make wooden pegs, called a peg cutter, had two or more metal tubes embedded in a wooden block supported with peg legs. The craftsman placed a block of wood over the tube and pounded, cutting with the grain. This formed what we might call a dowel rod today (dowel is from the German word "dovel," which means plug, as in a keg of beer).



Peg cutter

A device for cutting threads in a block of wood, into which a threaded dowel could be screwed, was made with a threaded wooden handle in a wooden frame. Only two small pieces of metal were needed to cut the thread in a spiral through the block of wood: one as a metal plate on the wood threads of the threaded dowel that pulled it through the block of wood, and one as a cutting tool fastened to the dowel for cutting the threads in the block of wood.

The Quern was used to grind the corn more thoroughly, using two grinding stones placed on a table, the top one with a hole at the hub and a wooden handle at the edge. The grain was poured down the middle hole and the pulverized grain came out between the two stones.

HOUSE OF MEMORY TO EULOGIZE WAR DEAD OF NORTH CAROLINA

A beautiful idea which had its inspiration more than 20 years ago has been realized.

Beyond a verdant and peaceful little valley in Oakwood cemetery, on a sloping terrace [sic] against a background of cedars and oaks and the weathered headstones of 2800 graves of confederate soldiers and sailors stands the House of Memory.

Dignified by its simplified Gothic lines, the pavilion is constructed of native and rugged Wake County stone and embellished with limestone windows, traceries, and facings. Its floor is of multi-colored Beaver Creek stone. Its ceiling is supported by beams of rich oak.

Over the doorway is a limestone tablet:

THE HOUSE OF MEMORY
TO THE SOLDIERS AND SAILORS
OF NORTH CAROLINA
WHO SERVED HER IN TIME OF WAR ON LAND AND SEA

In grateful appreciation of the untiring work in conceiving and having erected this beautiful House of Memory, the North Carolina Division of the United Daughters of the Confederacy dedicates this program to the beloved past president of the General James Johnston ***PETTIGREW*** *Chapter:*

Miss **SWAIN** met the soldier at the [sic] old well on the University Campus, and they were married immediately after the war. The meetings of the generals were held at the **BENNETT** place, five miles north of Durham, where negotiations of peace were made. This place has, within the past few years, been made a national park. Documentary sources of this authentic material are found in the North Carolina Room of the U. N. AMERICA THE BEAUTIFUL

O beautiful for spacious skies,
For amber waves of grain.—
For purple mountain majesties
Above the fruited plain!—
America! America! God shed His grace on thee—
And crown thy good with brotherhood
From sea to shining sea!
O beautiful for pilgrim feet,
Whose stern, impassioned stress—
A thoroughfare for freedom beat
Across the wilderness!—
America! America! God mend thine ev'ry flaw.
Confirm thy soul in self-control,
Thy liberty in law!
O beautiful for heroes proved
In liberating strife—
Who more than self their contry [sic] loved,
And mercy more than life!—
America! America! May God thy gold refine—
Till all success be nobleness
And every gain divine!

THE OLD NORTH STATE

Carolina! Carolina! Heaven's blessings attend her!
While we live we will cherish, protect and defend her;
Tho' the scorner may sneer at and witlings defame her,
Still our hearts swell with gladness whenever we name her.

Chorus

Hurrah! Hurrah! The Old North State forever!
Hurrah! Hurrah! The good Old North State!
Though she envies not others, their merited glory,
Say whose name stands the foremost, in Liberty's story,
Though too true to herself e'er to crouch to oppression,
Who can yield to just rule a more loyal submission?

Chorus

Hurrah! Hurrah! The Old North State forever!
Hurrah! Hurrah! The good Old North State!
Then let all those who love us, love the land that we live in,
As happy a region as on this side of heaven,
Where plenty and peace, love and joy smile before us,
Raise aloud, raise together the heart thrilling chorus.

Chorus

Hurrah! Hurrah! The Old North State forever!
Hurrah! Hurrah! The good Old North State!

WAKE COUNTY ADOPTIONS

Submitted by Torrey Paulson

Scanned by Diane Richard from old newsletters (precursor to the current journal)
Starts on page 83-46 continues on 83-47 and another group is on page 83-64

The following are abstracts from documents found in the box, "Wake County Adoptions 1881-1933 (broken series)," at the N.C. State Archives here in Raleigh. Call number for the box is CR 099.901.1.

Page 83-46

A document from the file folder entitled "Petition of Wm. **RHODES** to adopt Samuel **TELLOC** 1881" shows the following:

Wm. M. **RHODES** and his wife Elmyra **RHODES** petitioned the Wake County Probate Court to be allowed to adopt Samuel **TELLOC**. The couple "have now and have had in their keeping for some time an orphan minor child Samuel **TELLOC** by name..." an orphan without mother or father, guardian or estate.

The couple wanted to adopt Samuel for life "and said orphan child is anxious that they may do so."

"…the names of the said orphan child's parents are unknown to said petitioners and are both dead, the said orphan minor child having been born in Rockingham County, N.C. and was sent to said petitioners by their request from the Orphan Asylum at Oxford N.C. The age of said orphan minor child supposed to be about ten years old."

The document is dated 7 Oct. 1881. The signatures are W M **RHODES** (**RHODS**?) and Elmira **RHODS**. Sworn and subscribed before Chas D. **UPCHURCH**?, CSC (or CC?).

An order from the probate court dated 7 Oct. 1881 by Chas. D. **UPCHURCH** grants letters of adoption to Wm M. Rhodes and his wife for adoption of Samuel **TELLOC**.

From the file folder called "Adoption records 1891-1899 (broken series)" are documents with the following information.

A petition before the Wake County Superior Court dated Dec. 22, 1891 shows that J. D. **RIGGAN** wanted to adopt Allie **McLAWHORN**. Allie was about four years old and was living in Wake County.

"... the name of the Mother of said child is Quillie **McLAWHORN** . and that the name of the father is unknown – the said Quillie **McLAWHORN** is dead and it is unknown whether the father of said child is dead or alive – … said child has no guardian and that your Petitioner (J. D. **RIGGAN**) is the person having charge of the said child and with whom she has for some time past and does now reside...

RIGGAN and his wife ask the court to change Allie's name to Ruth **RIGGAN**, and to grant them letters of adoption. One document shows J. D. **RIGGAN** was permitted to adopt Allie **McLAWHORN** "for her natural life – Unless this order shall sooner be revoked by the Court for good cause shown."

The document also orders that Allie's name "... be changed to that of Ruth **RIGGAN**..." Dated Dec. 22, 1891 by Jno. W. **THOMPSON**, Clerk of Superior Court.

A final judgment dated May 29, 1897, voids the earlier order and revokes the adoption. The child is also ordered to "resume her original name of Allie **McLAWHORN** and no longer be permitted to use the name of Ruth **RIGGAN**..." The order was by D. H. **YOUNG**, Clerk of Superior Court for Wake County.

There are documents relating to this adoption, giving reasons for the adoption revocation, so anyone interested should check them for full details.

Another case before the Wake County Superior Court Clerk, dated Oct. 18, 1895, was a petition from P. H. **GOWER** requesting that he be allowed to adopt Bessie **GLOVER**. Bessie was "a female child ... a resident of Wake County, North Carolina, born February 28th, 1881, and is an orphan - aged 14 yrs."

Bessie "has always borne the name of Bessie **GLOVER**, being an illegitimate child of one Mary **GLOVER**, and is said to have been begotten, by a man named Scott (**SEATH**?), whose first name the petitioner (**GOWER**) does not know." .

"... the mother of the said child died on the 9th day of August 1882, leaving her an infant of about seventeen months, friendless and unprotected, and was taken by the petitioner into his home, on the 8th day of September 1882, where she has since resided and lived as one of petitioner's family."

Gower asks for letters of adoption so he may adopt Bessie.

The case was prepared by **ARGO** and **SNOW**, attorneys for **GOWER**, and was presented to D. H. **YOUNG**, Clerk of Superior Court in Wake County.

The court grants the letters of adoption, and enables Bessie to inherit real estate and personal estate of P. H. Gower "in the same manner and to the same extent as she would have been entitled if she had been the actual child of the said P. H. **GOWER**..." Albert L.(T?) **COBLE** (Covle?) was presiding judge.

Another document, a "Petition for Adoption of Minor Children" brought by A. G. **BAUER**, shows an interesting case.

"... on the 14th? day of June 1895 he (**BAUER**) intermarried in 'Washington, D. C. with Miss Rachel **BLYTHE** a lady of Indian blood, and subsequently came to reside in North Carolina; and that under the laws of North Carolina some question as to the validity of said marriage might be raised so as to affect the rights as heirs of the minor children, the issue of said marriage;

"that there were born, the issue of said marriage, two children, Owenah **BAUER**, aged fourteen months, and Fred **BAUER**, aged three weeks, both being infants of tender years; that they have no property and are in charge of your petitioner, A. G. **BAUER**, their father; and that their mother, Rachel **BAUER**, died in Raleigh on the 9th day of January 1897.

"... To avoid any possible question as to the rights and mutual relations of said children and your petitioner he (**BAUER**) asks that he (be) granted an order granting letters of adoption establishing and validating? the relation of parent and child as to both of said children, for their lives and forever..."

In the court order approving the adoption, dated Feb. 2, 1897, the children "are hereby enabled to inherit both the real and personal property of the said A. G. **BAUER** in the same manner and to the same extent as other legitimate children from their parents."

The following is a continuation of Wake County adoption abstracts. Box is "Wake County Adoptions 1881-1933 (broken series)," at the N.C. State Archives. Call number is CR 099.901.1.

From the file folder, "Adoption records 1891-1899 (broken series):"

An order dated 21 Feb. 1898 granting letters of adoption shows Eugene Alonza **BRANHAM** as the minor child of Charles E. and Emma Jane **BRANHAM**.

Copyright © 2009 Wake County Genealogical Society

The document shows that by that date Eugene was an "orphan, without any estate," and Emma was dead. Charles was still living.

The court granted Everett McK. **LEE** letters of adoption over Eugene. (Charles consented to the adoption.) The court also ordered that the child's name be changed from Eugene Alonza **BRANHAM** to Eugene Alonza **LEE**.

D. H. **YOUNG**, CSC, signed.

Another case, this dated 23 March 1899, before Wake County in Superior Court, shows Frank **WHITT** as a six-month old orphan child. At the time he was being cared for by M. N. **GOODWIN** of Wake County.

Minnie **WHITT**, the infant's mother, was dead, and the of infant's father was unknown, "the mother never having been married." M. N. **GOODWIN** signed the document.

Another related document shows M. N. **GOODWIN** was granted letters of adoption so he could adopt Frank. The order was signed by W. M. **RUSS**, Clerk of Superior Court.

A petition for adoption dated 14 Oct. 1899 before W. M. **RUSS**, Clerk of the Wake County Superior Court, shows that Nettie Pearl **NEAL** was a 19-year old orphan. At the time she resided with Francis H. M. **DAVID** in Raleigh, and had done so for several years.

The document shows that "... the parents of said orphan child are dead, their names having been James **NEAL** and Sarah **NEAL**, of Shelby County, State of Indiana."

Mr. **DAVID** at that time had no child of his own, and wanted Nettie Pearl **NEAL**'s name to be changed from that to Nettie Pearl **DAVID**.

A related document notes that Sarah C. **DAVID** was Nettie's aunt, and R. S. **ALLEN** was Nettie's uncle. He. Sarah and Nettie all consented to the adoption and name change. The court granted permission to Mr. **DAVID** to adopt Nettie, and ordered her name changed to Nettie Pearl **DAVID**.

"Approved, this 16th day of October, 1899. At Chambers in Goldsboro, North Carolina. Fred **MOORE**. Judge holding the Courts of the Fourth Judicial District of North Carolina."

WAKE COUNTY PROCESSION MASTERS RETURNS – 1771-1776

1984 Newsletter, Pages 84-75 Through 84-79

The word "procession" is from late Latin "procession" – onis a ceremonial marching (in Latin, a marching onwards); Latin "procedure" – to proceed.

This is exactly what our ancestors did to officially determine land boundaries before deeds became the official documents.

A civil law was adopted to settle boundary disputes and, once a year, or more often if the court was petitioned, a processioner, appointed by the court, chain bearers, witnesses, etc. would gather at the property and "ceremoniously proceed to march" around the land measuring it as they went. The results were recorded and filed in the county court records.

Processioning is explained more fully in *North Carolina Research, Genealogy and Local History*, edited by Helen F. M. Leary and Maurice R. Stirewalt; pages 209-210.

The following was taken from *Wake County, North Carolina County Court Minutes 1771 Thru 1776, Book A-L* by Weynette Parks Haun. We wish to thank Weynette for giving us permission to use it.

JOHNSTON COUNTY PROCESSION MASTERS RETURNS – 1772

Transcribed by Elizabeth E. Ross

Among the Johnston County Land Records Files in the N.C. Archives, there is a folder marked Misc. Land Records, which contain the original reports of the various Procession Masters for the year 1771/72. The order of the processioning was evidently given 27 Nov. 1771, and two of these reports were presented to the Court of Pleas & Quarter Sessions May Court 1772, pg. 161 of the Court Minutes. Each list is separate with the listers' signatures. A total of 14 reports are included in the 321 listings. Some names appear more than one time in the lists, due to the location of the land that they owned. This processioning of the lands patented by the owners probably is the earliest existing list of property owners actually living in Johnston County. This listing gives not only the owner of the property, but the man who owned the adjoining property, and his presence is noted. Some of the owners disputed the boundary lines and is also listed. Orphans of several men are listed. If the land was not processioned reasons are given. The following lists are given verbatim.

The Latin and French Languages will be taught when required. The preceding literary course will be attended to entirely by Male Teachers.

The Female Teacher who presides over this Department, and at all times superintends the morals and deportment of the Young Ladies, will also instruct such of her pupils as desire it, in Instrumental Music, Painting, Drawing, Tambouring[2], Embroidery, and all the various branches of plain and ornamental needlework.

* * * We are happy to observe that Female Education, hitherto so shamefully neglected amongst us, has of late become an object of very general attention. * * * But, whilst we rejoice to see our Institutions crowded with Young Ladies, we cannot but regret that so few have perseverance and resolution enough to submit to a literary course, sufficiently extensive, either to do credit to their Instructors, or to afford real and lasting advantage to themselves. * * *

That due encouragement may be given to Female Literature, it is hereby announced to the Public, that when any Young Lady shall submit to the regular course now adopted, and stand an approved Examination on the Studies belonging to the several classes, she shall, upon leaving the Academy, be entitled to its distinguishing honors, viz. *An Honorary Certificate and a Golden Medal with an Elegant inscription.*

SCHOOL CLOSING—CHANGE OF TEACHERS.

On Monday last the semi-annual Examination of the Students of our Academy commenced at the State House. The Classes in general stood highly approved examinations. * * *

Mr. **GLYNN** and Mr. **FORSTER** have changed situations. Mr. **FORSTER** takes Mr. **GLYNN**'s place as Teacher in the Academy and Mr. **GLYNN** enters upon the office of Private Secretary to his Excellency the Governor, lately occupied by Mr. **FORSTER**.

—*Raleigh Register, Friday, June 7, 1811.*

The Semi-annual Examination of the Students of the Raleigh Academy commenced at the State House on Monday the 4th instant, and closed on Thursday evening. The Examination was minute and strict, and the result was satisfactory to the audience and honorable to the institution.

The Trustees have for certain reasons deemed it improper to publish their reports on the Examinations, but content themselves with reading them to the audience. Their reasons for withholding the publication are doubtless good, but as there are no considerations which ought to restrain us, we take the liberty of publishing our opinions of the distinctions which belonged to students of the different classes, as we feel it to be an act of justice to those who under our constant observation have toiled in the fields of learning with unwearied diligence and success.

Our limits will not permit us to name all the members of the different classes, some of which are numerous; we shall therefore only notice those who excelled. Every name mentioned we consider entitled to particular distinction. The Preparation School consisting of so small children is passed over without notice.

In Justice to several students of the best talents, and most commendable industry, who are not named here, it ought to be mentioned that they have not yet acquired particular distinction because of the short time they have been in the Academy. They are yet in the infancy of their studies, but it is expected the proud list we have given above will by another examination be swelled by the names of many who are pressing forward in their studies with a degree of persevering exertion that will soon place them in the first ranks of merit.

At the close of the examination, after the Reading of the Report, Mr. Anthony Greville **GLYNN**, by request of the Trustees, rose and addressed the Students and audience in a speech, and at the conclusion, delivered a Valedictory to the Trustees, Teachers and Students, on the occasion of his then retiring from his situation in the Academy. Mr. **GLYNN**'s speech was very eloquent and impressive, and was heard with unmixed delight by the audience.

LETTER ABOUT MISS GRANBERRY.

Bertie, Piney Wilds, near Windsor

Dr. Sir, This will be handed you by Mr. Lewis **COTTON**, who brings Lucy **GRANBERRY**, a ward of mine, to yr. school. I wish her to attend to reading, writing, Geography, Grammar, & Arithmetic, in the course of the year, to be arranged as may seem most expedient, she will probably wish to draw or paint, and if so should have no objection provided it does not interfere too much with her other studies. Mr. **COTTON** will probably leave some money with you for her use, as she may want some few things, such as Books, paper, a paint Box, etc. etc., which you will please furnish, as have requested her to apply to you.

Our former acquaintance has induced me to take this liberty with you, & hope it will not be disagreeable to act as Guardian to a little girl.

Respectfully Your Hble. Servt

MR. RICE TO TEACH AGAIN.

We have the pleasure to state that the Trustees of our Academy have engaged the assistance of the Rev'd Benjamin **RICE**. He will aid Mr. **McPHEETERS** in the higher classes. The character of Mr. **RICE** as a scholar and preceptor is so well known, that we hazard nothing in saying he will be an important acquisition to the talents already employed in this Seminar.

HONOR ROLL, January, 1812.

RALEIGH ACADEMY.

Our usual testimony in favor of those students who enter this Seminary early in the session has this year been delayed, but not because our sense of their merits is any wise lessened. Those students only, who improve every moment of the precious and fleeting period of youth, can hope to derive essential benefits from education; but the delicate master Jackies and spoilt Misses, who make their education a mere holiday amusement for the summer, never have and never can be materially benefited by their interrupted immethodical studies. Besides that the mind in the winter being more active and more capable of exertion, receives new impressions and new ideas with much greater facility than in summer, (one day in the former season being worth two in the latter) the portion of life allotted to education is too short to justify the loss of a single day. The following are the students now in the Academy, with the names of the places from which they are sent. That they have been punctual in their attendance is but half their praise; they are prosecuting their studies with the most commendable ardor and perseverance.

SEVEN TEACHERS EMPLOYED AT THE ACADEMY, 1812.

RALEIGH ACADEMY.

The Parents and Guardians of Students at the Raleigh Academy, and the friends of the institution and of literature in general, may be gratified by being informed that the business of Education was never more prosperously conducted than at present. The Students are numerous and industrious, and are well attended by efficient instructors. Seven teachers are now employed, viz.: In the Male Department, Mr. **M'PHEETERS** (the Principal), and Mr. **MANGUM**; in the Female department, Mrs. **SAMBOURNE**, Miss **M'INTYRE**, & Mr. **FORSTER**. And in the Preparatory School, Mr. **DICKSON** and Mr. **JONES**. In consequence of the increased number of students, Committees are appointed for weekly instead of monthly visitations, as formerly. Every exertion is made by the Trustees to sustain and increase the reputation which the Raleigh Academy has deservedly acquired, and the students are commendably zealous in this co-operation. Their two societies have weekly meetings for the exercise of their talents in the discussion of useful subjects, and considerable additions are made to the Library.

MRS. SAMBOURNE TO RETIRE.

Mrs. **SAMBOURNE**,

Having testified to the Trustees of the Raleigh Academy her intention of relinquishing her situation as Superintendent of the Female Department, at the conclusion of the present Session, wishes to inform her Friends and the Public, that she shall continue to reside in Raleigh, and, at the commencement of the ensuing year, will instruct a few Young Ladies in Music, Painting, Embroidery, etc. so that Students in the Academy and others will have an opportunity of acquiring there polite accomplishments.

GOING IN DEBT, POCKET MONEY, ETC.

In order to maintain and preserve the good character which the Raleigh Academy has hitherto had, of being not only an Institution well calculated to afford instruction of every kind of Youth of both sexes; but also an Institution where the morals of Students are improved and preserved in purity:

It is most earnestly recommended by the Trustees of this Institution, that the Parents and Guardians of Students sent to it, will not put any considerable sum of money in the disposal of such Students, nor allow them to contract a debt at any Store in the city; but that they authorize some respectable resident to allow their Children or Wards small sums of pocket money at stated periods, and, in all cases, to authorize the purchase of any articles of Clothing, Books, etc., which it may be necessary for them to obtain on credit during their stay at the Academy. * * *

———
———

And whereas a practice has lately obtained amongst some of the Students of the Academy of leaving their Boarding Houses after their Parents or Guardians have placed them there for the Session, abruptly and without notice, without the knowledge of their said Parents or Guardians; which indecorous conduct, if continued, will probably have the effect to prevent respectable Families from taking Students to board, and thereby greatly injure the interests of the Institution:

The Trustees of this Institution, in order, if possible, to prevent a repetition of this practice, wish it to be understood, that when Parents or Guardians place their Children or Wards to board, they place them for the Session; and if any such Student shall leave his or her Boarding House, without the consent of his or her Parents or Guardian, expressed in writing, the Parent or Guardian shall not only be liable to pay for his or her board for the remainder of the Session, but such Student shall be considered by the Faculty as having committed a disorderly act, and shall be dealt with accordingly. * * *

COUNTERFEIT DUE BILLS.

Our readers will observe, by an advertisement in to-day's paper, that our Academy due-bills have the denomination of 25 cents have been counterfeited, and that men named **KILLINGSWORTH** and **MASSEY** are suspected of circulating them. It is supposed that the counterfeits are made in Johnston county. They may be easily known by the bad execution of the printing, and the paper being lighter than that of the good bills.

Messrs. **S. H.** and **J. B. SCHOOL CLOSING.

On Saturday last, the Examination of the Students of our Academy was closed by the reading of the Report of the Trustees on the merits of the Students, followed by a very appropriate Address, by Dr. C. Jones, (one of the Trustees appointed for the purpose) in the course of which was conferred on one of the Female Students, who had passed through the complete course of studies prescribed for the Female Department with the approbation[1] of the Trustees and Faculty (agreeably to a provision in the laws of the Institution) an Honorary Certificate, and an elegantly designed Gold Medal.

The report on the merits of the Compositions, Drawings & Embroidery was delivered by Mr. A. **LUCAS**, and evinced much taste and ability.

This highly approved Examination occupied seven days; nor will the time appear long when it is stated that eleven classes of Students passed in review from the Preparation School; twenty-six in the Languages and Sciences, and thirty-nine in the different branches of Learning taught in the Female Department. In addition to which, there were inspected 50 or 60 original Compositions, 40 specimens of Drawing, and 4 of Embroidery. In the course of the Examination an Oration was also heard from nearly every Male Student in the Academy. The Exercises of the next session will commence on the 1st of January.

LETTER TO ELI WARD.

Eli Onslow May 31st. 1913

I have just received your letter and am surprised to hear the examination has taken place as I expected it would commence until about 15th of June at which time I expected to go or send. You must call on Mr. **PEACE** and he will pay for your schooling—as it is out of my power at this time to send the money, for the want of an opportunity as there is no post office nigh, which you well know—I am now waiting for my vessel to sail for Wilmington where I expect to be in a few days. I will then send on the money for you to pay Mr. **PEACE**, and Mr. **GOODWIN** for your board which you can made none [sic] to them.

SCHOOL CLOSING.

The semi-annual Examination of the Students of our Academy was yesterday brought to a close. * * * For their convenience, the Trustees divided themselves into three classes, one of which constantly attended the Examination; besides distinct committees appointed for the purpose of examining and reporting on the Compositions, the writing, the drawings and needle-work of the Young Ladies, etc. At one o'clock yesterday, their Report, in which the merits of every class were particularly enumerated, was read to the Students and a large and respectable audience, by the Hon. John Louis **TAYLOR**, Chief Justice of this State; who closed the whole by a handsome and appropriate address.

The second Session of the Academy will commence on Monday next.

RULES ABOUT DEBTS, EXTRAVAGANCE, POCKET MONEY.

The Trustees of the Academy have at all times watched over the morals and deportment of Students confided to their care. * * * The Students are generally diligent in the studies, orderly in their demeanor, and regular in their moral conduct. * * * Still, however, there is an evil which found its way into this Institution sometime ago, and which neither the discipline of the Teachers, nor the advice of the Trustees has been able to entirely to eradicate. It is the extravagant use of Money; or, what is still worse, the extravagant use of Credit. Proper means have been used to root out this practice. Parents and Guardians have been publicly advised, and merchants and shopkeepers entreated and warned; and yet there are some recent instances of Students involving their Parents and Guardians in much unnecessary expense; by opening accounts unauthorized, in the stores and shops of the city. * * * One dollar a month is considered sufficient for pocket money. * * * Would it not be wise, would it not be honorable, for every Parent and Guardian to make a firm stand against this practice, as the bane of Education and Virtue? * * * The good work is already begun. One Gentleman, regardless of false censures, has positively refused payment. His conduct on this occasion can not be too highly extolled, and it is earnestly hoped this example will be universally followed.

By order of the Board,

LANCASTER METHODS TO BE INTRODUCED.

We congratulate our fellow-citizens on the prospect of establishing in the Preparatory School of our Academy, the highly approved mode of teaching children the first rudiments of Learning, invented by the celebrated Joseph **LANCASTER** of London, by which one man can superintend the instruction of any number of scholars from 50 to 1000. At the monthly meeting of the trustees of the Academy on Saturday last, a favorable Report was made by a committee who had been appointed to consider this subject, from which it appeared, that when this plan shall be introduced, the children of all such parents in the city and neighborhood as are unable to pay their tuition, may be taught without additional expense so that this institution will answer all the purposes of a Free School. The Report was unanimously concurred with, and a subscription immediately opened for effecting the object, which Mr. **GLENDENNING** generously headed with $50. Nearly $200 were subscribed by the Trustees present; and there is no doubt but a sufficient fund will be immediately raised for sending a fit person to the District of Columbia, (where there is a school of this kind in operation under the direction of one of Mr. **LANCASTER**'s pupils) to receive the

necessary instruction, and return hither for the purpose of undertaking the contemplated School, which it is proposed shall open with the ensuing year. Benevolent individuals who are willing to give aid to this plan for disseminating the benefits of education amongst the poorest classes of the community, are requested to place their names to the subscription paper, which is in the hands of Wm. **PEACE**, Esq., Treasurer of the Academy.

SCHOOL CLOSING—GRADUATES.

The semi-annual Examination of the Students of the Raleigh Academy commenced on Monday last, and will close this day. The manner in which the Students generally acquitted themselves does equal honor [?] to themselves and their Teachers. After the reading of the Report of the Trustees, honorary certificates and Gold Medals will be delivered to Miss Sarah **HAYWOOD** and Miss Charity **HAYWOOD**, as testimonies of their having honorable passed through all the Studies prescribed of the Female Students of this Institution.

FEMALE TEACHER WANTED.

The situation of Female Teacher in the Academy at Raleigh is at present vacant. A Lady well qualified to teach the Ornamental Branches of Female Education, such as Painting, Drawing, Embroidery and plain and fancy work, and who has besides a competent knowledge of Arithmetic, English Grammar, Geography, etc., and whose manners are calculated to inspire respect from the Young Ladies who may be placed under her care, may meet with a comfortable and permanent situation on making immediate application to Joseph **GALES**, President of the Board of Trustees, at Raleigh, N. C.

Nov. 24, 1814.
☞ The next Session of the Academy will commence on the 1st of January.

TEACHERS FOR 1815.

The exercises of this institution commenced, as usual, on the first Monday in January, under the superintendance of the Rev. **McPHEETERS**, assisted by well qualified teachers.

The literary department of the Female Academy is placed under the care of the Rev. Josiah **CRUDUP**, jun.—and the painting, drawing and ornamental needle-work, will be taught by a lady in all respects well qualified, who will have charge of the manners and deportment of the young ladies.

The preparatory school will be conducted according to Mr. **LANCASTER**'s improved mode of teaching elementary knowledge, lately introduced into this country—the Trustees having had Mr. John **EVANS**, of this city, thoroughly qualified for instructing youth after this manner, and are now engaged in enlarging their school room, fitting it up for this purpose. As soon as the work is finished, which will be in a few weeks, this mode of teaching will commence. In the meantime the children will be taught in the ordinary way.

The price of teaching in the preparatory school is reduced to $10 per annum, or $5 per session;--which, when it is considered that no books will be wanted, will be cheaper than any other school.

As soon as the Lancastrian mode of teaching is in operation, the Trustees propose taking a number of poor children to educate free of expense. Application, for admission of scholars of this description, must be made to Judge **POTTER**, Wm. **SHAW** or J. **GALES**, who are appointed to attend to this business.

LANCASTER SCHOOL TO BEGIN.

Mr. **LANCASTER**'s celebrated mode of teaching the elements of the English language will go into operation in the Preparation Department of the Raleigh Academy on Monday next.

—Raleigh Star, Friday, February 10, 1815.

LANCASTER SCHOOL FREE TO POOR CHILDREN.

The Trustees of the Raleigh Academy wish it to be generally known, that the new and highly approved Plan of teaching the first Rudiments of Learning, invented by the celebrated Joseph **LANCASTER** of England is now in operation in their Preparatory School. * * *

The great advantages attending this plan of Education are, that a Teacher can instruct any number of Children that his School Room will hold; Children are taught the Rudiments of Learning in a much shorter time than in the usual way (the youngest learning to read and write at the same time); it is much cheaper than the old mode, the price being $10 a year only, and no Books are required. * * *

The Trustees receive the Children of such Parents as cannot afford to pay for their Education free of expense. Such as wish to avail themselves of this advantage, will apply to Judge **POTTER**, Wm. **SHAW** or J. **GALES**, who will give them the necessary introduction to the School. What renders this provision the most acceptable is, no one but the Trustees to whom the Parent applies and the Treasurer (not even the Teacher) knows which of the Scholars are paid for and which are taught gratis.

MISS NYE COMES TO THE ACADEMY.

SUBSCRIPTION LIBRARY INAUGURATED.

Forty subscribers at ten dollars the first year, and five dollars a year for five years afterwards have been obtained for this institution. The Encyclopedia and some other valuable books have been purchased. This and the Polemic Library of the Academy have been united, and both are now in common free to the use of subscribers and those Students of the Academy who are members of the Polemic Society. This very economical mode of obtaining the use of a large number of well chosen books ought to be adopted in every county, town, and neighborhood. For the benefit of those disposed to promote the establishment of such institutions, the constitution, laws and regulations of *this*, will at some future time be published.

—Editorial Raleigh Star, June 9, 1815.

SCHOOL CLOSING—GRADUATES.

The Examination of the Students of the Raleigh Academy terminated yesterday. Sarah B. **LITTLEJOHN** of Granville, Eliza E. **HAYWOOD** and Eleanor **WHITE** of Raleigh, having gone through the prescribed course of study, were candidates for the first honors of the Institution. Their examinations were in a high degree satisfactory, and Gold Medals and Certificates were awarded them. The reading of the report and the ceremony of conferring the honors will be performed this morning, on which occasion Chief Justice **TAYLOR**, will address the Students, on behalf of the Trustees. * * *

—Raleigh Star, June 9, 1815.

LANCASTER SCHOOL IN OPERATIONS.

* * * Between 70 and 80 pupils of the Lancastrian school were examined amongst whom the 8th and highest class was examined on writing on paper, Arithmetic, English Grammar and Geography. In which * * * were distinguished.

The trustees cannot pass over the **LANCASTER** school without expressing their particular approbation[1] of the manner in which it has been conducted during the short period it has been in operation.

Though this school has had an existence of a few months only, the trustees find that children, who before they entered it, did not know a letter in the book can read, write, have some knowledge of figures, and can repeat by heart a number of moral verses. Some, indeed, have obtained a considerable knowledge of English Grammar & Geography. * * *

SCHOOL CLOSING—PATRONAGE, LANCASTER METHODS, CLASSES.

Report of the Examination.— * * * The Trustees can state with pleasure that considerably upwards of 200 pupils have attended during the late session of the Academy. A large portion of these were young ladies, not only of this, but several of the Southern States. In their advancement, the benefits of the trustees, in their last report, so confidently anticipated from the endowments of Miss **NYE**, were even surpassed. Nothing can possibly exceed the zeal of this accomplished instructress; and while the Institution retains as its head, a principal so well qualified to promote and so devoted to its success, as the Rev. Mr. **McPHEETERS**, seconded by the talents of his various assistants, it is confidently pronounced that this Academy can rank second to none in the Union. The trustees had the peculiar gratification of being able, for the last half year, to afford to the female department, a teacher every way qualified to give instructions in drawing and painting—Mrs. **MARLING**, who was occasionally assisted by Mr. **MARLING**, of whose abilities it would be unnecessary here to speak. The result afforded high gratification to every one concerned, as did the progress of the pupils in music under the care of Mr. **GONEKE**. The Lancastrian school has been ably and attentively managed by the Rev. Mr. **EVANS**, and contains upwards of 100 scholars.

SCHOOL CLOSING—GRADUATES.

The semi-annual Examination of the Students of this Institution commenced on Friday last, and will close today. As an Abstract of the Report of the Trustees will appear in our next paper, it is unnecessary to speak of the particular merits of any of the classes. We may, indeed, say generally, that the examination has been a very satisfactory one. The Trustees report will be read this morning at the State House, when five young Ladies, viz. Misses Sarah J. **BRADLEY** from Salem District, South Carolina; Margaret M. **CRICHTON**, from Brunswick County, Virginia; Sarah T. **DAVIDSON**, from Mecklenburg, in this State, and Mary A. **BOND** and Maria W. **COMAN**, of this City, who having passed through the full course of studies prescribed by this Institution, will receive Honorary Certificates and Gold Medals, and deliver their Valedictory addresses. After which, Chief Justice **TAYLOR** will address the Students in behalf of the Trustees of the Academy.

$500 FOR PHILOSOPHICAL APPARATUS.

At a late meeting of the Trustees of this Academy, the sum of $500 was appropriated for the purpose of a Philosophical Apparatus. Mr. **MITCHELL**, one of the Professors in the University of this State (who is now on a visit to the North) has been requested to make the necessary arrangements on behalf of the Board.

The advantages which will accrue to the institution from the above appropriation must be obvious, as the Teachers will be enabled to illustrate the principles of Natural Science, by many useful pleasing experiments, all tending to facilitate the progress of the students in this important branch of Education.

SCHOOL CLOSING—GRADUATES.

Raleigh Academy.—The semi-annual Examination of the Students of this Institution commenced on Friday, and closed yesterday. We believe the Students generally, both Male and Female, passed upon their various studies with approbation[1].—An Abstract of the Report of the Trustees will probably appear in our next paper.

Two young Ladies, viz: Miss Frances E. **CRICHTON**, from Brunswick County, Virginia and Miss Mary **HILLYARD**, from Granville County, in this State, having completed the course of Studies prescribed for the Female Department, received Golden Medals and Honorary Certificates. Previous to their separation, the Students were addressed by a Member of the Board of Trustees in an appropriate and impressive manner.

The Recess will continue till the 1st of January.
—Raleigh Register, November 10, 1820.

RALEIGH ACADEMY.—The half-yearly examination of this Institution closed on Wednesday last. Those who attended were much gratified by the proficiency manifested in every branch of education which came under their notice. Yesterday, the report of the Trustees was read by *Charles **MANLY***, Esq.—after which *Chief Justice **TAYLOR***, pronounced an address to the Students, which was justly admired by every one who heard it. Upon those especially, to whom it was directed, it produced the deepest impression, and was considered by all not only an excellent lesson, on the importance of an early devotion to learning, but an admirable example of its results.

Two Young Ladies of the Academy, Miss **CREIGHTON** and Miss **HILLIARD**, were presented with Golden Medals, they having completed their course of education.

TEACHERS FOR 1821.

The Exercises of this Institution will be resumed on Monday the 1st of January.

The Rev. Dr. **McPHEETERS**, under whose superintendance it has flourished for the last ten years, is still Principal of this Academy. He is assisted in the Male Department by Mr. Alexander **WILSON**.

The Teachers in the Female Department will be Miss **NYE** (whose talents as a Teacher are probably unrivalled) Mr. **BARLOW**, a Graduate of one of the Northern Colleges, from Connecticut, and Miss **YANCEY**. * * *
